

Temp.AM 03

ambient temperature sensor Pt100

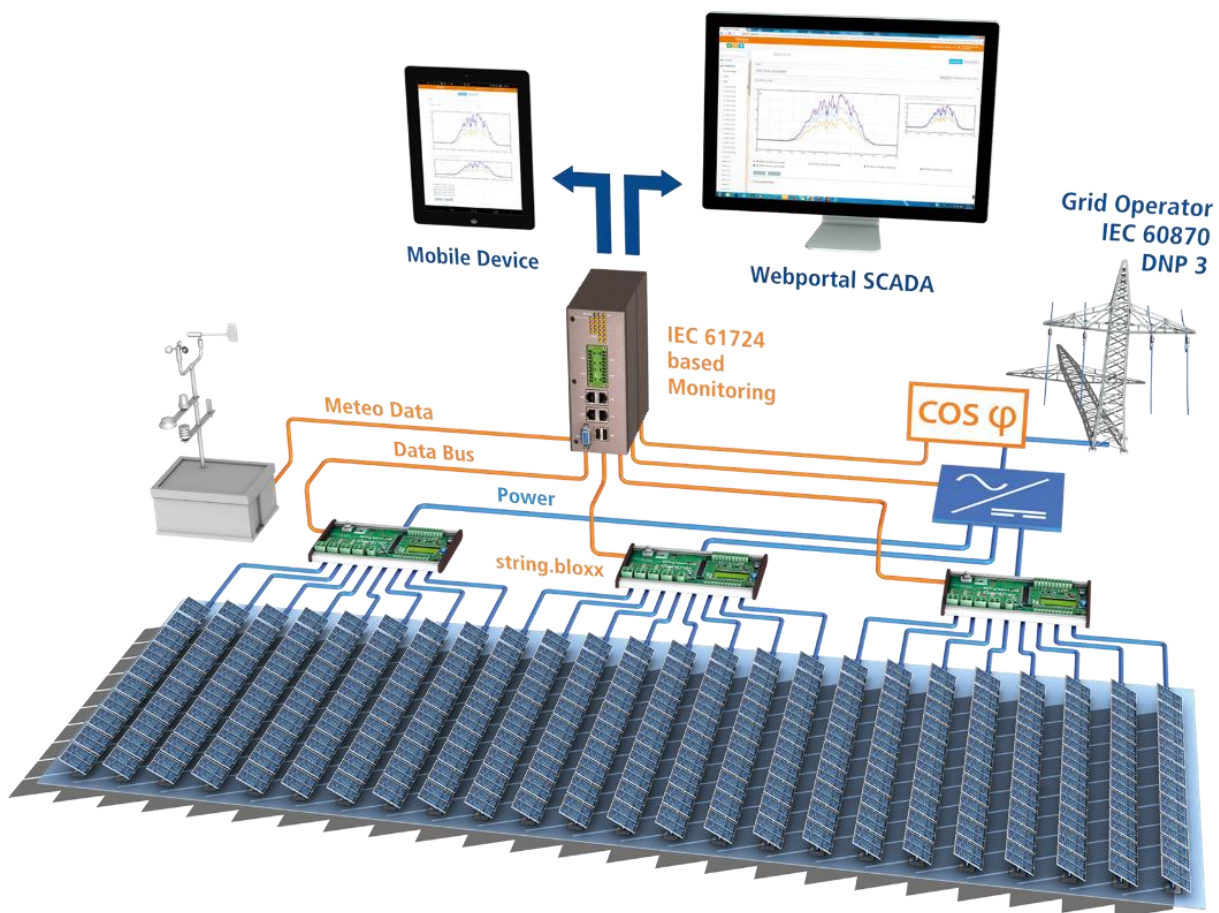

Key features:

- Sensor Pt100
- 4 Wire
- Measuring range -50 °C to +150 °C
- DIN EN 60751 Cl. B
- 4-conductor connection, free ends with cable
- cable length 10 m
- Protection mode IP 67

Temp.AM 03 temperature sensor Pt100

The Temp.AM 03 temperature sensor is designed for ambient temperature measurements.

Warm Up Time

All declarations are valid after a warm up time of 45 minutes.

Specification subject to change without prior notice.
